

BRINGS NATURE TO THE CLASSROOM!

THROUGH COMMUNITY AND EDUCATION WE ALL THRIVE TOGETHER. BY EDUCATING AND EMPOWERING YOUTH TO MAKE ENVIRONMENTALLY CONSCIOUS DECISIONS, WE CAN MAKE THE WORLD A BETTER PLACE.

Love nature as much as we do? Enjoy nature lessons and insect activities perfect for kids kindergarten through second grade. Here are some ways Rose can enhance your students' insect studies:

- All About Honey Bees
- Biology of Bugs With Live Show and Tell Guests (Madagascar Hissing Cockroaches)
- Make & Take Bug Crafts With the Bug Girls
- Special Guest Appearance by Our Very Own Beloved Mascot, Zippy the Honey Bee!

We pride ourselves on creating engaging ways for children to connect to nature and build their love for science. Contact our marketing team for more information on scheduling a visit.
