General Use Directions:

Computers, etc. Do not treat where electrical short circuits might result. Do not treat directly into any electronic equipment such as radios, televisions, computers, etc. Do not treat where electrical short circuits might result.

This pesticide is toxic to fish and wildlife. Do not apply directly to or into bodies of water or to areas where water is conveyed or diverted, including but not limited to ponds, lakes, streams, ditches, storm drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas (after cleaning or bottling).

Precautionary Statements:

Hazard to Humans and Domestic Animals:

Caution: Wash hands and exposed skin before eating, drinking or smoking and after handling. Wash all contaminated clothing thoroughly before re-use.

Environmental Hazards:

This pesticide is toxic to fish and wildlife. Do not apply directly to or into bodies of water or to areas where water is conveyed or diverted, including but not limited to ponds, lakes, streams, ditches, storm drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas (after cleaning or bottling).

Physical or Chemical Hazards:

Do not apply to or contaminate fruit, vegetables or other food or feed crops.

Other Injuries:

Abamectin B1........................................................................................................................... 0.05%

Active Ingredient:

Food Processing Plants, Motels, Restaurants and other Food Handling Establishments, Schools, Supermarkets, Transportation Equipment (Buses, Boats, Ships, Trains and Planes) and Warehouses

Active Ingredient:

Abamectin B1 ........................................................................................................................... 0.05%

Other Ingredients:

EPA Reg. No. 499-410

KEEP OUT OF REACH OF CHILDREN

Caution:

Do not use on or near food or feed products or food preparation surfaces, dishes, kitchen utensils and food containers.

To prevent staining, exposed bait should be cleaned up immediately with a damp cloth or sponge.

Application Rates - All Uses:

4 - 6 bait points are recommended per 100 sq. ft. of treatment area. For heavy infestations of Cockroaches, 12 - 24 bait points are recommended per 100 sq. ft. of treatment area. Each bait point should equal about 0.25 to 0.50 grams of product. A spot approximately 3 mm or 1/8 inch in diameter equals 0.25 grams of product, while a spot approximately 6 mm or 1/4 inch in diameter equals 0.50 grams of product.

APPLICATIONS IN ALL EXCEPT FOOD/FEED HANDLING AREAS OF FOOD/FEED HANDLING ESTABLISHMENTS

For treatment in residential and the non-food/non-feed areas of institutional, warehousing and commercial establishments, place bait into cracks and crevices; holes, pipe-joists, undersides of furniture; under drain plates; in or under trash containers; hidden surfaces around sinks and storage areas; behind baseboards; around doors and windows; inside, behind and under cabinets, drawers and shelving; under and behind appliances such as stoves and refrigerators; and in attics and crawl spaces. Also apply in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases and crawl spaces where insects hide. During follow-up visits, inspect bait placements and re-apply when necessary. Care should be taken to avoid depositing gel onto exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surface. This product may also be used in food/feed areas of food/feed handling establishments as outlined below.

APPLICATIONS IN FOOD/FEED AREAS OF FOOD/FEED HANDLING ESTABLISHMENTS

Application within food/feed areas of food/feed handling establishments is limited to Crack & Crevice® treatment only. Apply AVERT directly into cracks and crevices. Apply small amounts of gel (up to 0.50 gram) per point. Do not apply bait to areas where food utensils or food processing surfaces may become contaminated. Do not apply gel to areas that are routinely washed such as cracks and crevices in tops of tables, food/feed preparation and prepared food holding surfaces as bait may be removed by washing. Care should be taken to avoid depositing gel onto exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surface. Food/feed areas include areas for receiving, storing, packing, cleaning, bottling, wrapping, boxing, preparing edible waste storage, and enclosed processing systems (milks, dairies, edible oils, syrups). Serving areas are also considered food/feed areas when food is exposed and facility is in operation. Apply bait in small amounts between different elements of construction, between equipment and floors, openings leading into voids and hollow spaces in floors, walls, ceilings, equipment legs and bases, around plumbing pipes, doors and windows, behind and under refrigerators, cabinets, sinks, closets, stoves and other equipment where cockroaches hide. During follow-up visits, inspect bait placements and re-apply when necessary. Application of this product in food/feed areas of food/feed handling establishments other than as a Crack & Crevice treatment is not permitted. Do not treat food preparation surfaces.

APPLICATIONS IN AIRCRAFT

Application within passenger areas of aircraft is limited to Crack & Crevice treatment only. Apply AVERT in areas between elements of construction such as areas under sinks, openings around pipes, under shelving, where shelves meet other shelves or the wall, area between and around microphones, where support brackets attach to the main structure and where seats are attached to the floor. Use 12 - 24 bait placements per 100 sq. ft. Do not apply bait to areas where food utensils or food preparation surfaces may become contaminated. Do not apply bait to areas that are routinely washed such as cracks and crevices in tops of tables, food preparation, and food holding surfaces as bait may be removed by washing. Care should be taken to avoid depositing gel onto exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surface. During follow-up visits, inspect bait placements and re-apply when necessary.

Other Injuries:

Abamectin B1 ........................................................................................................................... 0.05%

Other Ingredients:

EPA Reg. No. 499-410

Storage & Disposal:

Do not puncture or incinerate. Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool dry area away from heat or open flame and inaccessible to children.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Empty container by using the product according to the label directions. Place empty container in trash or offer for recycling if available. If container or bag is partially filled, call your local solid waste agency or call 1-800-CLEANUP for disposal instructions. NEVER PLACE UNUSED PRODUCT DOWN ANY INDOOR OR OUTDOOR DRAIN.
