CONQUER
RESIDUAL INSECTICIDE CONCENTRATE

Dilute with Water or oil.

CONTROLS OR KILLS LISTED PESTS
IN AND AROUND STRUCTURES

For use in and around the Home and Food and Non-Food Areas of: Schools, Warehouses, Office Buildings, Apartment Buildings, Theatres, Hotels, Motels, Kennels, Food Processing Plants, Food Service Establishments, Truck Trailers, Railroad Cars, and Food Manufacturing and Warehousing Establishments. Also for use on lawns to kill fleas and ticks.

ACTIVE INGREDIENT:

*Estevanovale (CAS # 66230-04-4) ........................................ 3.48%

*OTHER INGREDIENTS .................................................. 96.52%

*Contains petroleum distillates

NET CONTENTS 16 FL. OZ.

Rev 0509 1009 F2662-012

Manufactured for:
PARAGON PROFESSIONAL PEST CONTROL PRODUCTS
3635 Knight Road, #7 • Memphis, TN 38118

KEEP OUT OF REACH OF CHILDREN
CAUTION FIRST AID

IF SWALLOWED:
• Immediately call a poison control center or doctor.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give any liquid to the person.
• Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing and shoes.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF INHALED:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance. Then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Contains petroleum distillate – vomiting may cause aspiration pneumonia. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate ornamental fish ponds. Do not containate water when disposing of equipment wash water or rinse water. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Combustible. Do not use or store near heat or open flame. Do not apply this product around electrical equipment due to the possibility of shock hazard.

APPLICATION ONLY IN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:

DO NOT TREAT ESTABLISHMENTS WHERE LIVESTOCK FEED IS PRESENT

A food handling establishment is an area or place other than a private residence in which food is held, processed, prepared, or served. Food areas of food handing establishments include areas for receiving, storing, storage (dry, cold, frozen, raw), packaging (canning, bottling, wrapping, boxing), preparing (cleaning, slicing, cooking, grinding), edible waste storage, enclosed processing systems (milks, dairies, edible oils, syrups). Non-food areas of food handling establishments include garbage rooms, lavatories, floor drains to sewers, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling). Serving areas are places where prepared foods are served, such as dining rooms, but excluding areas where foods maybe prepared or held. As a Surface Spray:

Do not apply when food processing facility is in operation or foods are exposed.

Do not apply this spray to surfaces or utensils that may come into contact with food; excessive residues in food may result.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE

Do not apply directly to food. Cover or remove all food and food-processing equipment during application. After spraying in meat packing plants, bakeries, and other food processing plants, wash all equipment, benches, shelving, etc. where exposed food will be handled with an effective cleaning compound, and then rinse with potable water.

In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use following treatment.

Cover exposed food.

Do not spray plants used for food or feed.

Remove pets and birds and cover fish aquariaums before spraying.

Do not allow children or pets to contact treated surfaces until spray has dried.

Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm.

Do not apply to classrooms while in use.

Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.

Do not tank mix this product with dichlorvos-DDVP-containing products.

The physical compatibility of CONQUER Residual Insecticide Concentrate with tank mix partners should be tested before use. To determine the physical compatibility of CONQUER Residual Insecticide Concentrate with other products. Using a 1 pint jar, add the proportionate amounts of the products and solvent. After thoroughly mixing, let stand for at least 5 minutes. If the combination remains mixed or can be remixed readily, it is physically compatible. Once compatibility has been proven acceptable, use the same procedure for adding required ingredients to the spray tank. If the combination proves not to be physically compatible, do not use these products in a tank mix. Observe the most restrictive of the labeling limitations and precautions of all products used in mixtures. Label Dosage Rates: No label dosage rates should be exceeded. This product cannot be mixed with any product containing a label prohibition against such mixing.

INDOOR USE:

GENERAL MIXING AND USE INSTRUCTIONS:

Use CONQUER Residual Insecticide Concentrate to control the pests indicated in the listed areas as a contact spray.

To Kill the Accessible Stages of Granary Insects: Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, and Infested stored products should be removed and destroyed, fumigated or treated with other products approved for this use. Use as above in mechanical aerosol foggers at the rate of one (1) ounce (30 mls) per 1,000 cubic feet (28.3 cubic meters) of space. Keep area closed for at least 1/2 hour and vent thoroughly before re-entry. Do not repeat application more than once every three (3) days.

*Rice Weevil, Yellow Meal Worm, Cadelle, Confused Flour Beetle, Saw-Toothed Grain Beetles, Angoumois Grain Moth, Mediterranean Flour Moth, Indian Meal Moth, Cockroach, Grain Mites and Cockroaches.

To Treat Voids in Equipment and Structures: To Kill Ants (including Carpenter Ants), Centipedes, Cockroaches, Crickets, Earwigs, Psocids, Spiders, Water-bugs, and Insect Pests of Stored Food: To Kill The Adult and Accessible Forms of Insect Pests* Of Stored Food (Stored In Multi-Walled Paper Bags Or In Cloth Bags) In Warehouses, Storage Rooms and Similar Locations: Do not apply as contact treatment on surfaces to be touched, but do not exceed more than one (1) application every fourteen (14) days.

To Kill Ants, Centipedes, Cockroaches, Crickets, Earwigs, Millipedes, Psocids, Scorpions, Silverfish, Sowbugs, Spiders, and Water-bugs: Apply diluted spray with a sprayer that produces coarse water droplets into all cracks and crevices in wood-work and floors, underneath sinks, areas behind pipes, and in all non-food contact places where these insects shelter. Use as a coarse spray at the rate of one (1) Gallon of spray dilution per 1,000 square feet (40 mls/L). Contact as many insects as possible with direct spray. Repeat applications as needed, but do not exceed more than one (1) application every fourteen (14) days in all types of food handling establishments.

To Kill Sowbugs, Spiders, and Ticks: Apply diluted spray with a sprayer that produces coarse water droplets into all cracks and crevices in wood-work and floors, underneath sinks, areas behind pipes, and in all non-food contact places where these insects shelter. Use as a coarse spray at the rate of one (1) Gallon of spray dilution per 1,000 square feet (40 mls/L). Contact as many insects as possible with direct spray. Repeat applications as needed, but do not exceed more than one (1) application every fourteen (14) days.

Amount of Product to use Amount of Water to use Area to be treated
2 Fluid Ounces 1 Gallon 1,000 sq ft
15.9 mls 1 Liter 25 m2

Do not spray in or near fish ponds or other bodies of water.

Building Perimeter Treatment: To help prevent infestations of by Ants, Crickets, Spiders, Centipedes, and Sowbugs (Pillbugs), treat a 12 inch (0.30 – 0.46 m) band of soil or other substrate adjacent to buildings and the building foundation to a height of 2 to 3 feet (0.6 – 0.9 m) where these pests are active and may find entry. Use one (2) fluid ounces of concentrate per Gallon (15.9 mls/L) of water and apply as a coarse wet spray at the rate of one (1) Gallon per 1,000 square feet (1 (1) L. diluted product/25 m2).

WOOD DESTROYING INSECTS OUTDOORS ONLY: To KILL EXPOSED/SWARMING TERMITES: Use two (2) fluid ounces of CONQUER Residual Insecticide Concentrate per one (1) Gallon (15.9 mls/L) of water and apply as a coarse, wetting spray where swarming termites are seen emerging from wood piles, wooden fence posts, wooden structures, or from the ground. Swarming usually occurs in the spring or at other times when a termite colony becomes overcrowded and new reproductive termites with wings emerge and fly away to mate and establish new colonies. This treatment will control the sprayed termites and will not protect the structure from which the swarm is coming. Use only as a contact spray to kill emerging reproductive (winged) and worker termites emerging from infested wood.

CONQUER Residual Insecticide Concentrate will kill workers and/or winged reproductive forms of subterranean termites present at time of application only. Application of this product will not provide structural protection or substitute for mechanical alteration, soil or foundation treatment with termicides, as it is not designed to offer structural protection and will not prevent future infestations. A professional inspection is recommended.

Carpenter Bees, Carpenter Ants, Old House Bories, Powder Post Beetles, Furniture Beetles, Round-Headed House Bees, and Death-watch Beetles: Use two (2) fluid ounces of CONQUER Residual Insecticide Concentrate per Gallon (15.9 mls/L) of water and apply as a coarse, wetting spray to exposed pests and to the damaged areas of wood, spraying into galleries or tunnels in the exposed wood. Also spray around doors, door frames, windows, and other areas where these pests may enter the house or hide. Spray into cracks and crevices and, if necessary, drill small holes and spray into inaccessible wooden structural voids where these pests are suspected.

LAWN FLEA AND TICK CONTROL: To Kill Fleas and Ticks Harboring in Lawns and Backyards: For power spraying, dilute and apply as shown in the table below.
