TREATMENT OF EXPOSURE

If swallowed:
• Have person sip a glass of water if able to swallow.

If in eyes:
• Do not induce vomiting unless told to do so by a poison control center or doctor.

If on skin:
• Take off contaminated clothing.

If ingested:
• Call a poison control center for treatment.

If inhaled:
• Move the person to a fresh air location and keep person comfortable and at rest.

Other Insects

Centipedes, Cockroaches, Clover Mites, Crickets, Field Crickets, Fire Ants, Sowbugs, Spiders, Springtails (Collembola), Termites, Ticks; treat a band 5 to 10 feet wide around and adjacent to the building where pests are active and may find entrance. Treat at a rate of 1 to 1 1/2 pounds per 500 square feet or 2 to 3 pounds per 1,000 square feet.

Pesticide Storage:

Recommended that granules applied to these surfaces be removed.

To avoid potential residue on concrete surfaces (patios, sidewalks, driveways, pavers, or similar material), it is recommended that granules applied to these surfaces be removed.

This product is extremely toxic to fish and aquatic invertebrates. Use with care when applying in areas adjacent to any body of water.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that the product reaches its target pest and not a beneficial pest or unintended target.

This is a binary concentrate that contains Deltamethrin on a water dispersible carrier. Treat as directed. Use with care when applying in areas adjacent to any body of water.

Not for use in commercial greenhouses or nurseries. Not for use on sod farms, grass grown for seed, or on golf course turf. Apply this product directly to the lawn or garden area. Water treated area as directed on this label. Do not water to the point of runoff. Do not use water on the product container. Do not use on lawns and grounds.

Do not apply more than once per week. For Bermudagrass mites, do not apply more than 8 pounds per acre per application. For Medfly, do not apply more than 8 pounds per acre per application. For imported fire ants, do not apply more than 8 pounds per acre per application. For European Fire Ants, do not apply more than 8 pounds per acre per application. For Argentine fire ants, do not apply more than 8 pounds per acre per application. For Crazy Ants: do not apply more than 4 pounds per acre per application.

IMPORTANT: READ BEFORE USE

By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability.

Lawn Moths (Sod Webworm Adults)

PERIMETER TREATMENT:

For termites, the purpose of such applications of DELTAGARD G Insecticide Granule is to kill workers or winged reproductive forms which may be present at the time of treatment. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but are merely a supplement.

To control Ants, Acrobat, Argentine, Big Headed, Cornfield, Harvester, Leafcutter, Little

cover the nest (1 to 2 teaspoons) and sprinkled with sufficient water to dissolve granules. In addition to treating ant nests or mounds, entry points of buildings and the soil surface along the perimeter of the building should be treated.

DIGGER WASPS:

Apply two tablespoons over each 8" to 10" diameter mound and up to 2 feet around to prevent

FLOWER, SHRUB, ORNAMENTAL PLANT BEDS AND INTERIOR PLANTSCAPES:

Ants, Fire Ants, Armyworms, Centipedes, Cockroaches, Crickets, Cutworms, Grasshoppers, Pillbugs, Sowbugs, Spiders, Springtails, Ticks (including those that may carry Lyme disease),

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

This product is extremely toxic to fish and aquatic invertebrates. Use with care when applying in areas adjacent to any body of water.

APPLICATION RESTRICTIONS

Apply this product as prescribed on this label. Do not make applications during rain. Do not apply on saturated soil. Do not allow runoff to occur. Do not contaminate ornamental fish ponds.

Not for use on sod farms, grass grown for seed, or on golf course turf. Apply this product directly to the lawn or garden area. Water treated area as directed on this label. Do not water to the point of run-off. Do not make applications in any area where the water table is within 10 feet of the surface. Do not apply to areas used for livestock or poultry.
