# DITRAC TRACKING POWDER

**KILLS RATS & MICE**

DITRAC® is a finely ground powder that is used for tracking pest burrows and droppings. It is effective against rats, mice, Norway rats, roof rats, and house mice. The product is applied in areas where pests are likely to be found, such as near food storage areas, under houses, and along the perimeter of structures.

**DIRECTIONS FOR USE**

1. **Determine Dry Areas**: Identify areas where rats and mice are likely to feed or travel. These areas may include corners, gaps, and crevices where food is stored.
2. **Place Tracking Powder**: Apply DITRAC TRACKING POWDER in areas where pests are likely to travel. Use patching techniques to ensure the powder is directly in contact with the pest, such as along the perimeter of structures or near food storage areas.
3. **Monitor and Adjust**: Regularly check the treated areas for signs of pest activity. Adjust the application as needed to ensure effective control.

**NOTES TO PHYSICIAN OR VETERINARIAN**

**TREATMENT FOR PET POISONING**

- **DIRECTIONS FOR USE**: Use only for the pests covered by the label and application methods described on the label. Do not dilute or mix with other products.
- **STORAGE AND DISPOSAL**: Keep out of reach of children and pets. Store in a cool, dry place.
- **USER SAFETY REQUIREMENTS**: Ensure proper ventilation when using the product. Wear personal protective equipment as recommended.
- **ENVIRONMENTAL HAZARDS**: This product is toxic to birds and mammals. Avoid contact with soil or plants.

**WARNING**: Use labeled amounts only. Overuse or misuse may lead to the development of resistant pest populations. Do not use on or near livestock or poultry.}

---

**RESTRICTED USE PESTICIDE**

Due to its high toxicity, this product is controlled by the federal government to ensure its safe and effective use. Use only by certified applicators or persons under their direct supervision and training.

**ACTIVE INGREDIENTS**: active ingredient(s) used to kill pests.

**OTHER INGREDIENTS**: ingredients that do not directly contribute to the pest control but are necessary for the product’s effectiveness.

**TOTAL**: the total percentage of active and other ingredients.
