INNER POUCH LABEL

A Concentrate for Preparing Liquid Baits to Kill Norway Rats, Roof Rats, and House Mice

Mix contents of pouch with 1 quart of water

ACTIVE INGREDIENT:
Sodium Salt of Diphacinone (CAS No. 20071-96-5) - 50%
OTHER INGREDIENTS: ........................................... 50%
TOTAL: ..................................................... 100%

KEEP OUT OF REACH OF CHILDREN

WARNING

This product is extremely toxic to mammals and birds. Dogs and other domestic animals may be killed if exposed to the bait. Use discretion in and around homes, barns, and at other places frequented by pets and animals. Harmful to fish and other aquatic life. Do not transport or dispose of bait or baits containers in vehicles or watercraft. Follow all precautions and use directions on label.

FOLLOW-UP:

Determine areas where rats or mice are living. Set up permanent bait stations and replenish bait as much as possible. If reinfestation does occur, repeat treatment. For a continuous infestation, set up permanent bait stations and replenish bait as much as possible. Use dispensers at several locations. Space dispensers and refill them as needed to keep bait fresh. Holes in walls and ceilings may need to be sealed to keep the baits from falling through. Do not put baits in or around the water supply. Do not contaminate water, food or feed by storage or disposal.

STORAGE AND DISPOSAL

Follow label directions. Do not use in homes or other residential settings. Do not use outdoors.

WARNING:

This product is extremely toxic to mammals and birds. Dogs and other domestic animals may be killed if exposed to the bait. Use discretion in and around homes, barns, and at other places frequented by pets and animals. Harmful to fish and other aquatic life. Do not transport or dispose of bait or baits containers in vehicles or watercraft. Follow all precautions and use directions on label.
