This product consists of the skeletal remains of fresh water diatoms, mined from the earth. Contains amorphous silicon dioxide. This product is intended for indoor and outdoor use to control ants, cockroaches, earwigs, fleas, mites, spiders and other crawling insects.

**ACTIVE INGREDIENT:** Diatomaceous Earth (including silicon dioxide, other oxides and moisture) ................................................... 100%

**FIRST AID**

**IF IN EYES:** Hold eyes open and rinse slowly and gently with water for 15 - 30 min. Remove contact lenses, if present, after the first 5 min., then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Call 1-800-632-HELP for further information.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Use adequate ventilation and avoid dust breathing. For prolonged exposure to dust, use a suitable dust mask approved by NIOSH/MSHA.

**DIRECTIONS FOR USE**

**IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.**

This product is a ready-for-use insecticide dust which has given effective homes 800-777-8570 for more information. 091201-20 applied will vary with the site but should usually be in the range of and door frames; along baseboards; in attics and crawl spaces; behind cabinets, refrigerators and sinks; around window fittings and equipment; around water and sewer pipes; under the structure. Examples of these areas are service ducts; false duster or other suitable equipment. Apply lightly and uniformly to

To apply insecticide directly into cracks and crevices, use a bulbous duster, or other suitable equipment. Apply lightly and uniformly to infested areas. Pay particular attention to cracks, crevices and voids where insects may be harboring, traveling, breeding or entering the structure. Examples of these areas are service ducts; false floors and ceilings; wall voids; around electrical and telephone fittings and equipment; around water and sewer pipes; under and behind cabinets, refrigerators and sinks; around window and door frames; along baseboards; in attics and crawl spaces; landscaped and mulched areas. The amount of product to be applied will vary with the site but should usually be in the range of 0.15 - 0.6 oz/10 ft² or 1 - 5 oz/1000 ft². To treat against Black Widow Spiders and Pharaoh Ants, apply at a rate of 0.633 oz/10 ft² or 0.6 - 3.3 oz/100 ft². Repeat treatments as necessary to maintain adequate control.

**INDOOR & OUTDOOR TREATMENTS**

Cracking Insects: Apply to cracks, crevices and voids where insects may be harboring, traveling, breeding or entering the structure. For example: around sinks and storage areas; behind baseboards; around doors and windows; behind and under refrigerators, cabinets and desks; sinks and stoves, and attics and crawl spaces. In commercial areas, apply to cracks, crevices and voids; office areas; stainless steel equipment; shelving; machinery; pallets; and other areas where these insects may be harboring, traveling or entering the structure.

Carpenter Ants: Apply to cracks, crevices and voids where insects may be harboring, traveling, breeding or entering the structure. If possible, apply dust into infested wood through existing openings or newly drilled small holes. When possible, locate and treat nests, trails and surrounding areas.

Flies: Apply dust to infested areas as in and around pet beds and resting corners; nearby cracks and crevices; under the edges of rugs, carpets and floor coverings. Treat cracks, crevices and voids around and under upholstered furniture, and other areas where these pests frequent. When treating furniture, rugs and fabrics, treat a small area first to check for staining before treating large areas. Do not treat animals with this product.

Bees, Wasps, Hornets, Paper Wasps and Yellowjackets: It is generally advisable to treat wasp and bee nests in the evening when insects are less active and have returned to the nest. Wear protective clothing. If deemed necessary, to avoid stings. Using hand or power duster, or other suitable means (with extension tubes if necessary), thoroughly dust nest, nest entrance and surrounding areas where insects alight. Nests in voids should be located and treated. If necessary, drill a hole into the void(s), blow dust in, and rescale. For ground wasps and yellowjackets, dust entrance and surrounding areas. For best results, carefully check nests 1 - 2 days after treatment to ensure complete kill. When treating bee nests, apply in such a manner as to avoid drift onto the applicator.

Bed Bugs: Apply at a minimum rate of 1.6 oz/100 ft² to cracks, crevices and voids associated with mattresses, box springs, bed frames and other furniture where these insects may harbor, travel, breed or enter the room. Treat mattresses, especially tufts, folds and edges. Cover with clean bedding before using. Bed Bugs may also harbor in areas of the room away from the bed or furniture. Apply product to wall voids, behind wall hangings, floor moldings, carpet’s edge, popcorn ceilings and other cracks, crevices or voids.

Carpenters (Black, Furniture and Varied) Webbing Clothes Moths and Spiders: Apply where these insects may be harboring, traveling, breeding or entering the structure. For example: on and under edges of floor coverings; under rugs and furniture; in closets and associated wall voids. When treating furniture, rugs and fabrics, treat a small area first to check for staining before treating a large area. Fruit and Phorid Flies: Apply where these insects harbor, travel, breed or enter the structure. For example: under cabinets or shelving; behind or under equipment or drains; protected exterior areas such as eaves, trash corrals and dumpsters; and other areas where organic debris may accumulate.

**FIRST AID**

**IN CASE OF CONTACT:**立即 flush eyes with large quantities of water for 15 - 20 min. Remove contact lenses, if present, after the first 5 min., then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

**IN CASE OF INGESTION:** Dilute with water and give 1 - 2 glasses of water. Place patient in a comfortable position. If breathing is difficult, give artificial respiration. Place container or label with you when calling a poison control center or doctor, or going for treatment. Call 1-800-632-HELP for further information.

**SYMPTOMS OF EXPOSURE:** Immediate irritation to the skin and eyes. Chemical burns of the skin. The skin can be宏观 tolerant to this product.

**FIRST AID TO ANIMALS:** Do not use on animals. Wash your hands after handling the product.

**PESTICIDE STORAGE AND SPILL PROCEDURES:** Store in original container in dry location. In case of spill, vacuum or dampen with water to prevent the material from spreading. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Call 1-800-632-HELP for further information.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, feed or seed by storage or disposal. PESTICIDE STORAGE AND SPILL PROCEDURES: Store in original container or approved waste disposal facility.

**CONTAINER DISPOSAL:** Empty container by using the product according to the label directions. Do not reuse! Place empty container in trash or for recycling if available. If container is partly filled, contact your local solid waste agency for disposal instructions.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or an approved waste disposal facility. CONTAINER DISPOSAL: Empty container by using the product according to the label directions. Do not reuse! Place empty container in trash or for recycling if available. If container is partly filled, contact your local solid waste agency for disposal instructions. NEVER PLACE UNUSED PRODUCT DOWN ANY INDOOR OR OUTDOOR DRAIN!

**NOTE:** This specimen label is for informational purposes only. All uses may not be approved in all states. See labeling which accompanied product for Directions for Use or call 800-777-8570 for more information.
