**APPLICATION INSTRUCTIONS**

Termidor May be used alone to kill subterranean or drywood termites or as a supplement to a post-construction application. Do not treatment of Termidor® 80 WG termiticide/insecticide or Termidor® SC termiticide/insecticide to provide protection from subterranean termites. This product will kill workers and/or winged reproductive forms of the listed termite species present at the time of application and will provide residual control of termites contacting the treated surfaces only as described in the Directions for Use. This product is intended only as a spot treatment. Application of this product will not provide structural protection nor substitute for mechanical alteration, or soil or foundation treatment with registered termite products. This product is not to be used as sole protection against termites, as it is not intended for elimination of disinfestations nor for protection against future infestations.

**Application Device:** This Ready-to-Use product is contained in a nonrefillable package and is for use with a specially designed applicator. Approximately 3 bulb compressions of the applicator delivers 0.1 g of product.

**Application Sites:** Apply into voids and galleries, shelter tubes, termite nests or other inaccessible areas of buildings, trees, utility poles, fencing, decking materials, railroad ties, piles, beams and other structural or landscape timbers where termite damage is observed or termite activity is present or suspected. If necessary, gain access to gallery or void by creating an opening into it. Openings should be approximately every 24” or into gallery or void. More injection points for each void, cartoon or gallery may be required. Do not apply more than 5 g (product) (250.0 mg Fipronil) per 1,000 ft² of total internal surface area of the void, cartoon, or gallery.

**Drywood Termites:** Apply 0.1 - 1 g/injection point. For applications into cartoon and nests apply 0.3 - 5 g/injection point. For applications into voids apply 0.2 - 2 g/injection point.

**Reapplication Interval:** This product may be applied to previously treated sites if termite activity is found 30 days after previous application.
